---

Here's something for us to talk about at this morning's Dimock meeting. The first attachment is an update on the action item matrix we originally prepared around June 1st which outlined actions to be taken to get us to the completion of the Dimock effort. The second attachment is an updated schedule specifically related to potentially halting the delivery of alternate water at the 4 homes and the final is a draft roll-out schedule for delivery and posting of all remaining analytical data to residents. These are all draft schedules and subject to your collective review and comments. Thanks, den.
